

Product Name :
Dent Pullers

Product Code :
BDSE0001

Description :

Dent Pullers

Technical Specification :

Input Voltage	220V / 380V
Input Power	22kVA
Input Current	58A
Welding Thickness	0.8+1.2mm

Super Configuration:

Easy moving & operating esthetical design high power output functions such as vertical pulling , heating / contract sheet plate, spot welding, stud, platecutting, meson, flatten etc.

Achieve the best welding result by micro processor control, advanced digital control tec, and special personalize design due to choose the suitable welding strength.

Voltage monitor automatically.

Over heat protection.

Adopt curve silicon steel chip and relay.

Adopt precise time adjustment system.

Various dismantling the vehicle, it is the most ideal and necessary equipment for auto maintenance.
