Product Name :
Carbonated Soft Drink Bottling Equipment Production Line

Product Code :
UAESDFM0001

Description :

Carbonated Soft Drink Bottling Equipment Production Line

Technical Specification :

Carbonated Soft Drink Bottling Equipment Production Line could be separated into 3 modules.
The height of the bottle-out conveyor is adjustable. bottles are conveyed to rinser, filler and capper through star wheel and conveyed out finally through the bottle-out conveyor.
Equipped with alarm device for bottle block, bottle absence, cap absence and overload.
The machine meets the national food hygienic standard with high automation and easy to operate.

The air conveyor is directly connected with the bottle-in starwheel. The bottle is transferred by neck holding.
The high-speed line adopts bottle clamps to transfer the bottle. It makes work much easier when the bottle size is changed.

By 3-in-1 mono block, the bottle goes through rinsing, filling and capping with little abrasion, and the transferring is stable, bottle change is easier.

Specially designed stainless steel bottle clamp does not contact the thread parts of the bottleneck, avoiding the second contamination.

The high-speed line is of ring type pressure bearing hydraulic cylinder.

High speed and large flow filling valve assure the high filling speed and exact fluid level.

Spares contact with the liquid is all of excellent stainless steel or food level plastic. The electric system is of international brand and achieves the national food sanitary standard.

The bottle-out star wheel is of screw down shape. When bottle size is changed, there is no need to adjust the transferring chain's height.

Customized size and specification as per your drawing or sample. We Carbonated Soft Drink Bottling Equipment

Production Line suppliers UAE Dubai, can make the Carbonated Soft Drink Bottling Equipment Production Line as per your request, specification, size and bulk quality Dubai.
