Product Name :
Gallon 20L Complete Water Filling Machine Production Line
With PET Barrel Bottle

Product Code :
GLON0001

Description :

Gallon 20L Complete Water Filling Machine Production Line With PET Barrel Bottle

Technical Specification :

Gallon 20L Complete Water Filling Machine Production Line With PET Barrel Bottle integrate rinsing , filling and capping , suitable for filling the pure water or the mineral water in 3 or 5 gallons . The filling speed ranges rinsing-filler-capper mono block , automatic loading machine , bottle outside washer , bottle inside washer , decapper , heating shrink tunnel , conveyor system , complete line control system .

The entire line includes the following optional equipment: Cap pulling machine, leak detection machine, brushing machine, automatic barrel loading device, washing / filling / capping three-in-one machine, barrel neck thermal machine, bagging machine, palletizer and etc.

3-5 gallon barrel water filling machine

Adopt food grade stainless steel material, compact structure, reasonable design, small footprint, production capacity from 100-3000b/h all can be customized;

PLC control, touch screen human-computer interaction interface, easy to operate, easy to maintain; The whole line output can be adjusted and has good compatibility and expansibility.
