

Product Name :
Metal Detector

Product Code :
AUXLY0003

Description :

Metal Detector

Technical Specification :

Apply advanced digital signal processing and realize high speed and stable weighing.
Special frame structure enables it to keep accuracy when working.
With liquid crystal and tangibly screen, it is easy to operate.
With strong data statistic function, it can memorize each data materials.

Main Features

The metal detector provides real-life detection of contaminants.
ATEX zone 21 approved
High output up to 50 tons per hour
Quick-release seal valve or cowbell type rejection mechanisms available
The metal detector, a kind of packaging auxiliary equipment, offers seal in accordance with IP 66 to suit washdown applications.
