Product Name :
Washing Machine for Fish

Product Code :
UAEDFE0004

Description :

Washing Machine for Fish

Technical Specification :

Any type of semi-finished products such as gutted fish, fillets or slices can be loaded, they can be automatically washed in 6 stages using jets that are installed in the top and bottom of the conveyor.
The used water can be recycled, thus the amount of used and contaminated water can be reduced by using an additional function for recycling water.
