Product Name :
Automatic Fish Skinning Machine

Product Code :
UAESSM0002

Description :

Automatic Fish Skinning Machine

Technical Specification :

The machine is designed for skinning large fish fillets and giant squid in a semi-automatic mode. The machine is equipped with a clamping drum that delivers the object to be processed under the descaling knife. This principle of operation prevents the hands of the operator from entering the working area of the knife. The machine meets the highest hygienic requirements.
