Product Name :
Universal Scale Removal Machine

Product Code :
UAESSM0006

Description :

Universal Scale Removal Machine

Technical Specification :

The machine is designed to remove scales from any kind of fish.

Removal of scales occurs with the help of jets of water and moving jets.

The pressure in the nozzle, the speed of the nozzles and the speed of the conveyor with the fish are regulated.

The equipment is compact and mobile. This allows you to save the workspace, it is possible to integrate the equipment into various production lines.

It is possible to customize for any type of product.

The machine meets the highest sanitary and hygienic standards.

Automatic scaling machine designed to remove scales from fish of different breeds. Removal of scales occurs by directing the jet of water under pressure onto scales of fish until it is completely cleared from the body of the fish. Water jets fall on the fish simultaneously from all sides. The operator's job is to lay the fish on a conveyor whose speed is regulated depending on the fish being processed. The pressure of the water jet, if necessary, is regulated according to the fish being processed.

Customized size and specification as per your drawing or sample. We Universal Scale Removal Machine suppliers UAE Dubai, can make the Universal Scale Removal Machine as per your request, specification, size and bulk quality Dubai.
