Product Name :
Descaling Machine

Product Code :
UAESSM0007

Description :

Descaling Machine

Technical Specification :

Descaling machine for fish is designed for skins with fresh, defrosted and salted whole fish of large breeds, as well as squid.

The machine is equipped with a water spray nozzle for washing the roller during operation. Therefore, before starting work, it is recommended to connect the unit to the water supply.

Works in a semi-automatic mode – the operator only needs to feed the squid or fish.

It is characterized by high reliability – the machine uses a stained stainless steel. The use of such materials extends the service life of the device by half.

Very convenient design for sanitary treatment – the working surfaces are easily mounted and dismantled.

High-precision adjustment of the apparatus for the product and the special cutting of the knife allow minimizing product losses during processing.

The machine is safe to use, easy and convenient to clean, has a modern design.
