Product Name :
Soda Water Filling Machine

Product Code :
EQUP-UE-CBF001

Description :

Soda Water Filling Machine

Technical Specification :

The advanced Siemens PLC is adopted to control the machine to run automatically. Omron sensor is used in the bottle entering chains to adjust speeds and coordinated with the transducer of the main machine to make the operations of moving bottle forward steadily and reliably. It is convenient to operate with higher automation because every part of the machine is inspected to run with sensor.

Material: The material which contact directly with the liquid is the (Food grade), made in China. The 3-in-1 is mainly used to fill pure water, Mineral water, carbonated drinks, wine and juice, tea etc.

This machine is mainly for filling carbonated beverage, like Feda, sprite, coca cola.and energy drink.

Sustainable solution: Reduced filler enclosure and servomotors reduce resource consumption

Hygiene improvement through volume control and contactless filling

Automatic dummy bottles: Safer, easier cleaning procedures

Automatic bottle changeover improves uptime

Customized size and specification as per your drawing or sample. We Soda Water Filling Machine suppliers UAE Dubai, can make the Soda Water Filling Machine as per your request, specification, size and bulk quality Dubai.
