Product Name :
Multi-Media Filter

Product Code :
EQUP-UE-WTE0004

Description :

Multi-Media Filter

Technical Specification :

Compact structure: This equipment integrates coagulation reaction, filtration and continuous cleaning. Simplified water treatment process, small footprint, simple structure, flexible and convenient installation and operation. Reduced energy consumption and labor management costs in multiple steps of the raw water treatment process, reducing the difficulty of operation.

The effect of coagulation reaction is obvious: the coagulation reaction mechanism and the sedimentation mechanism are used to effectively remove suspended matter and colloidal substances in water, which is beneficial to further reduce the turbidity of the water in the sand filtration zone.
