Product Name :
RO Water Treatment Filter

Product Code :
EQUP-UE-WTE0005

Description :

RO Water Treatment Filter

Technical Specification :

RO water treatment filter is to separate the solvent (usually referred to as water) in the solution through a reverse osmosis membrane (a semi-permeable membrane) with sufficient pressure. The direction is opposite to the permeation direction, and the reverse osmosis method greater than the osmotic pressure can be used for separation.
