

Product Name :
Block Packing Machine

Product Code :
EQUP-UE-BTH002

Description :

Block Packing Machine

Technical Specification :

Concrete block packing machine is an integrated packaging equipment made by adding film function to the cantilever winding packaging machine. It can complete the two functions of winding packaging and top film covering. It can form a five-sided closed moisture-proof, rain-proof, Dust-proof packaging. Fully automatic operation, high efficiency and low packaging cost. It is widely used in food and beverage, chemical fiber chemical, metallurgical building materials and other industries. It is the most advanced equipment to improve the degree of automation.

Suitable for various brick types

Binding capacity of 20,000 standard bricks per hour

Equipment installed capacity 25 kVA (KVA)

20 kilowatts per hour (KW)

Working pressure 0.6~0.8 MPa (Mpa)

Single stack air consumption 10 liters (L)

Binding strap specification width=15~16mm, thickness=0.6~1.0mm

Binding method side binding (friction method)

Banding speed 5 strips/1 minute

Single stack packing quantity 486 pieces (standard bricks)

Single stack consumables cost 3.1 yuan (conventional belt), 3.4 yuan (low temperature resistant belt)

Technical parameter:

Applicable PET tape specifications Width: 15-16mm

Thickness: 0.60-1.00mm Weight: 20-70KG

Feeding/reeling speed: 3.5m/s Tension force: 500-3500N

Weight of head module

Threading module: 16KG Tensioning module: 21KG

Buckle module: 20KG Interface length: 30mm

Customized size and specification as per your drawing or sample. We Block Packing Machine suppliers UAE Dubai, can make the Block Packing Machine as per your request, specification, size and bulk quality Dubai. Block Packing Machine Suppliers UAE, Exporters Dubai
