

Product Name :
Concrete Batching Plant

Product Code :
EQUP-UE-BTM0002

Description :

Concrete Batching Plant

Technical Specification :

This type of batching machine was designed to be simple structure in a wide range of models, size and capabilities, can be easily and economically transported to overseas. the storage silo material is transferred by belt conveyor, On bottom of aggregate hoppers, switch doors under cylinder control are installed to cast materials to the measuring hopper measurement according to the signal of batching controlling instrument. Vibrator is installed on gravel storage hopper to avoid gravel arch camber. Belt conveyor is driven by one to two motorized pulleys to realize one-way or two-way unloading, supplying materials to one or two mixers in the same time.

This series of products adopt electronic weighing, digital display

Accurate weighing, high batching accuracy, fast speed, strong controlling ability

Widely used in all kinds of large and medium sized construction project and concrete mixing station

Storage bucket capacity: 4800 L

Productivity: 180m³/h

Dimension: 17800*3150*4750mm

Volumn of single hopper: 30m³

Discharging height: 3900mm

Customized size and specification as per your drawing or sample. We Concrete Batching Plant suppliers UAE Dubai, can make the Concrete Batching Plant as per your request, specification, size and bulk quality Dubai. Concrete Batching Plant Suppliers UAE, Exporters Dubai
