**Product Name :**  
Concrete Block Moulding Machine

**Product Code :**  
EQUP-UE-BMM0010

**Description :**

Concrete Block Moulding Machine

**Technical Specification :**

It can be customized to produce products with a height of 400mm, which is suitable for the production of large-scale products, and the production of large-scale hydraulic slope protection and curbstones. It can be produced vertically and can choose layered fabrics, the output is increased, and the appearance of the product is better.

The forced centrifugal feeding system prevents the concrete from liquefying in advance, and the mechanism work produces forced centrifugal unloading, so that the materials are ready for use and the cloth is fast and even.

Main Dimension(L\*W\*H): 3400\*2100\*2580mm

Useful Moulding Area: 1000\*600\*40~220mm

Pallet size (L\*W\*H): 1100\*680\*25~30mm

Pressure Rating: 12~25Mpa

Vibration: 60~95KN

Vibration Frequency: 2800~4800r/min

Cycle time: 13-18s

Power: 42.15kW

Gross weight: 10.5T

Customized size and specification as per your drawing or sample. We Concrete Block Moulding Machine suppliers UAE Dubai, can make the Concrete Block Moulding Machine as per your request, specification, size and bulk quality Dubai.
