**Product Name :**  
Precast U Drain Mould

**Product Code :**  
EQUP-UE-MUD0004

**Description :**

Precast U Drain Mould

**Technical Specification :**

The use of drainage ditch is constantly increasing. It is not only used on ordinary roads, highways, railways, agricultural production, and rural reconstruction. Different forms of drainage ditch will be used in rural reconstruction. Therefore, there are many types of Precast U Drain Mould designs. Commonly used are round U, parallel U, and various special-shaped designs and productions according to drawings.

Main features:

The inside of the mold is mainly thickened ribs

Reasonable structure and high production efficiency

Easy to automate

Customized according to customer's size requirements, can be recycled

U-shaped channel steel molds have the advantages of high density, high brightness, strong toughness, not easy to deform, and extremely low damage rate.

Customized size and specification as per your drawing or sample. We Precast U Drain Mould suppliers UAE Dubai, can make the Precast U Drain Mould as per your request, specification, size and bulk quality Dubai.
