

Product Name :
High Fiber Pallet Dimensions Cost

Product Code :
EQUP-UE-BLK0006

Description :

High Fiber Pallet Dimensions Cost

Technical Specification :

Comparing with much weight of pvc pallet, High Fiber pallet is made of fiber as reinforcing material and thermoplastic resin as base material made by method of heating and pressurizing.

Thickness: 15-40mm

Density: 1200KG/M3

Tolerance Temperature: 110°C

Impact Strength: More than 83 KJ/m2

Bending Strength: More than 60 N/mm2

Surface: Smooth and hard

Flexural Modulus: More than 4.5×10^3 Mpa

Absorption: Less than 0.4%

Ageing Resistance: 8-10 years

Application: For brick or block pallet

Customized size and specification as per your drawing or sample. We High Fiber Pallet Dimensions Cost suppliers UAE Dubai, can make the High Fiber Pallet Dimensions Cost as per your request, specification, size and bulk quality Dubai.
