Product Name :
Pallet Plastic Fiber

Product Code :
EQUP-UE-BLK0008

Description :

Pallet Plastic Fiber

Technical Specification :

Pallet Plastic Fiber, this brick machine pallet is a composite material of glass fiber and thermoplastic resin, like steel reinforced concrete, glass fiber is three-dimensionally staggered like steel bars, and the resin is coated with cement. The steel bar is covered with glass fiber, so the rigidity and toughness of the brick machine pallet is particularly strong. It is a new type of engineering plastic developed for automobile engine bases, bumpers, and building templates in recent years, because it can be recycled.

Thickness: 15-40mm

Density: 1300KG/M3

Tolerance Temperature: 110°C

Impact Strength: More than 83 KJ/m2

Bending Strength: More than 60 N/mm2

Surface: Smooth and hard

Flexural Modulus: More than 4.5×10^3 Mpa

Absorption: Less than 0.4%

Ageing Resistance: 8-10 years

Application: For brick or block pallet

Customized size and specification as per your drawing or sample. We Pallet Plastic Fiber suppliers UAE Dubai, can make the Pallet Plastic Fiber as per your request, specification, size and bulk quality Dubai.
