Product Name :
Automatic Stacker Machine

Product Code :
EQUP-UE-BTH005

Description :

Automatic Stacker Machine

Technical Specification :

Automatic stacker adopts mechanical design. Its operation and maintenance is simple, automatic circuit control without operation. Configuration make the entire block production line can reduce at least 1-2 employees, reduce labor force and increase work efficiency. At the same time also reduce the damage of finished block and improve the yield. Independent automatic circuit control, is easy to support in different manufacturers and models of all kinds of molding machines.

Working voltage 380V

lift motor power: 1.5KW

Advance and retreat motor power: 1.5KW

The sensor voltage: 24V

Customized size and specification as per your drawing or sample. We Automatic Stacker Machine suppliers UAE Dubai, can make the Automatic Stacker Machine as per your request, specification, size and bulk quality Dubai.
