Product Name :
Pallets Conveyor Stacker Lift Feeding Machine

Product Code :
EQUP-UE-BTH0006

Description :

Pallets Conveyor Stacker Lift Feeding Machine

Technical Specification :

Considering the weight of pallet to transfer, also to save one to two labors to carry the pallet, we have manufacturing the pallets conveyor stacker lift feeding machine standing beside the pallet conveyor to transfer the pallets one by one. It is a auxiliary equipment of concrete block making machine and it replace human workers to palletize. As every pallet weight of large and medium-sized block molding machine has reached tens of kilograms, workers have strong labor intensity and labor costs are higher. It is without special care, no noise, no vibration, and placed in the hardened ground, that is, supporting the use of board feeder. It is convenient , economic and practical, thus reducing production costs and improving work efficiency.

Dimension: 2800x2500x2500 mm

Suitable Pallets Size: 850x680—880x1440mm

Pallets Quantity: 25-30pcs

Hydraulic Pressure: 14-20mpa

Bearing Weight: 3000kg

Bearing height: 1000mm

Pneumatic Pressure: 0.5-0.8kpa

Power: 5.5kW

Customized size and specification as per your drawing or sample. We Pallets Conveyor Stacker Lift Feeding Machine suppliers UAE Dubai, can make the Pallets Conveyor Stacker Lift Feeding Machine as per your request, specification, size and bulk quality Dubai.
