

Product Name :
Cascade Hydraulic Concrete Block Clamp Forklift

Product Code :
EQUP-UE-BTH007

Description :

Cascade Hydraulic Concrete Block Clamp Forklift

Technical Specification :

Usage:

Cascade hydraulic concrete block clamp forklift is suitable for various blocks such as aeroconcrete block, steam press brick, agglomerate brick, none-burning bricks, concrete pre-working products with non-tray transportings, stacking, load-ing operation

Characteristic:

Adopt full steel complete frame, high density, can meet the requirement of high forcing performance.

According to the force designed to clamp arm, solid and reliable, large clamping force and holding clip quantity, long operating life.

Large opening range :300-1700mm.

Flexible design that can be installed on any use of spreader

Optimized structure ensure nice visual field.

Independent side shifter, can move both side while claping object

with disassembly wearable rubber bar can hold a whole stack of blocks steadily.

Specification:

Carrying capacity:3000kg

Arm length:1200mm

Arm thick:210mm

Height:2060mm

Clamping height:1.2m

Rotation:360°

Frame width:1100

Opening range:300mm-1700mm

Customized size and specification as per your drawing or sample. We Cascade Hydraulic Concrete Block Clamp Forklift suppliers UAE Dubai, can make the Cascade Hydraulic Concrete Block Clamp Forklift as per your request, specification, size and bulk quality Dubai.
