Product Name :
Block Testing Machine

Product Code :
EQUP-UE-ACE0003

Description :

Block Testing Machine

Technical Specification :

The pressure block testing machine is loaded hydraulically, and uses hydraulic servo control technology to test the anti-pressure performance of building materials such as cement, mortar, concrete, and bricks, and displays the loading force value, loading speed, and loading curve. The test data is automatically processed, stored and printed.

Max. capacity: 2000KN

Measuring range: 0-2000

Relative error: $\pm 1\%$

Size of platens: 220*280mm

Max.distance between upper and lower platens: 330mm

Max.travel of ram: 40mm

Diameter of ram: $\varnothing 250$ mm

Rated pressure: 40Mpa

Power: 0.75 kW 3-pahse

Dimension: 960*460*1170 mm

Net weight: 800kg

Customized size and specification as per your drawing or sample. We Block Testing Machine suppliers UAE Dubai, can make the Block Testing Machine as per your request, specification, size and bulk quality Dubai.
