Product Name :
Automatic Batching Machine

Product Code :
EQUP-UE-BTM0004

Description :

Automatic Batching Machine

Technical Specification :

The concrete batching machine is an automatic batching device that cooperates with the mixer to work together. It can automatically complete the batching of 2-4 kinds of materials according to the user-defined mixing ratio. The batching machine and the mixers can be used together to form a simple concrete mixing plant. It is an ideal equipment for high-performance concrete production in various construction projects, small and medium-sized construction sites and precast plants.

Main features:

It can be a concrete mixer with a discharging capacity of less. It can be directly connected with a lifting hopper or fed with a belt conveyor.

Weighing system is used foreign imports sensor, advanced gravity sensor, weighing accurate, rapid, leading domestic performance.

Reasonable design, compact structure, easy operation, accurate mix ratio and stable control.

Customized size and specification as per your drawing or sample. We Automatic Batching Machine suppliers UAE Dubai, can make the Automatic Batching Machine as per your request, specification, size and bulk quality Dubai.
