Product Name :
Vertical Concrete Pipe Making Machine

Product Code :
EQUP-UE-CPM0003

Description :

Vertical Concrete Pipe Making Machine

Technical Specification :

The operation is simple and convenient, electro-hydraulic control is selected, and the operation control panel can be operated to complete various mechanical actions.

Reliable transmission, electrical appliances, hydraulic pressure and various driving organizations can put the transmission in place, so that the entire pipe-making operation procedure can be completed smoothly.

The mechanical noise is low. After testing by the testing part, the maximum noise during mechanical operation is below 75 decibels, which is lower than the noise produced by the centrifuge.

High production efficiency and low labor intensity. During the production of any diameter pipe of \varnothing 300-1200, one can be completed in only 2-5 minutes. All demoulding methods are adopted, and the assembly and disassembly of molds are simple, which reduces the labor intensity of workers.

Mechanical system

Mainframe, feeding system, power head system,

Socket mechanism, mold and accessories composition

Pneumatic system

Pneumatic pipeline, positioning cylinder

Hydraulic system

Double hydraulic station, hydraulic cylinder,

Hydraulic valve, cooling water tank

Electrical system

Customized size and specification as per your drawing or sample. We Vertical Concrete Pipe Making Machine suppliers UAE Dubai, can make the Vertical Concrete Pipe Making Machine as per your request, specification, size and bulk quality Dubai.

Vertical Concrete Pipe Making Machine Suppliers UAE, Exporters Dubai
