Product Name :
Concrete Pipe Mould

Product Code :
EQUP-UE-CPM0006

Description :

Concrete Pipe Mould

Technical Specification :

Concrete pipe mould is designed for concrete pipe making machine to produce concrete drain pipes, utilized the advanced technology to make a high concentricity, rigidity and durable, we are able to manufacture the mould with diameter from 300-2500mm and with length from 2000-3000mm in various kinds including flush joint (flat mouth type), groove joint, socket and spigot joint (socket and plug mouth type) ect. And all the concrete pipes are widely used in administrative drainage, agricultural field irrigation, road culvert and deep water well .

Features of Concrete Pipe Mould:

The overall design is used to strengthen the leak-proof slurry design, the mouth of pipe joints without rough edges, easy mold-opening.

Mold friction ring are all made from 45# cast steel

Customized size and specification as per your drawing or sample. We Concrete Pipe Mould suppliers UAE Dubai, can make the Concrete Pipe Mould as per your request, specification, size and bulk quality Dubai. Concrete Pipe Mould Suppliers UAE, Exporters Dubai
