

Product Name :
Solar Air Conditioner Power Consumption

Product Code :
EQUP-UE-SAC0007

Description :

Solar Air Conditioner Power Consumption

Technical Specification :

Off-Grid solar inverter air conditioner is ideal for areas and regions lack/short of power, especially for remote telecom stations, container houses, motor homes, remote locations, load shedding places, boating and island locations, ect

DC Off-Grid solar inverter air conditioner is ideal for areas and regions lack/short of power, especially for remote telecom stations, container houses, motor homes, remote locations, load shedding places, boating and island locations, ect..Due to the latest advancement of the electronic control and power shifting technology, this DC Off Grid solar air conditioner will realise operating by 100% solar power.Embracing the 100% Off Grid 48V/72V/96V DC Inverter Solar Air Conditioners will reduce operating costs by up to 100% during the day and night due to ZERO consumption of utility power.The 100% Off Grid Units use a combination of solar power and power ban. Customized size and specification as per your drawing or sample. We Solar Air Conditioner Power Consumption suppliers UAE Dubai, can make the Solar Air Conditioner Power Consumption as per your request, specification, size and bulk quality Dubai.
