Product Name :
Mppt Solar Charge Controller

Product Code :
EQUP-UE-SCL001

Description :

Mppt Solar Charge Controller

Technical Specification :

RC-MPPT is a kind of intellectual, high-efficiency and high-speed solar controller. It adopts advanced MPPT arithmetic which make it absorb as large energy as possible from solar array. It can be used in the 3KW off-grid solar system and promote 30% efficiency.

Advanced MPPT technology with efficiency up to 99.5%;

Max. efficiency 98% and full load efficiency 97%;

Adapt to variable kind of battery;

Intellectual discharge control;

3-state charge method prolongs the life of battery

LCD display

Multiple protection function: over discharge, over load, short circuit etc.

Customized size and specification as per your drawing or sample. We Mppt Solar Charge Controller suppliers UAE Dubai, can make the Mppt Solar Charge Controller as per your request, specification, size and bulk quality Dubai.

Mppt Solar Charge Controller Suppliers UAE, Exporters Dubai
