Product Name :
Storage Battery Energy Change

Product Code :
EQUP-UE-BTR0006

Description :

Storage Battery Energy Change

Technical Specification :

Safety seal ,Deflating system ,Simple maintenance ,long lasting ,Stable quality and high reliability
Gelled electrolyte made by mixing sulfuric acid with silica fume.
The electrolyte is gel like ,immobile and does not leak ,enabling uniform reaction of each part of the plate .

High rate discharge performance due to tight assembly technology

Strong heat dissipation and wide operating temperature range

Avoid acid mist being separated out , environment friendliness

Efficient venting system release excessive gas automatically

Please use constant-voltage charge.

In floating charge, the voltage is 2.23 to 2.27 per unit cell.

In cycle use, the voltage is 2.35 to 2.45 per unit cell, the max. Current is no more than 25%° C

Please do tighten the bolts to avoid sparkle and poor contact when the battery is in use.

Please do not use it near the heat source and open flame.

Please keep it at low temperature. Please change it while there is liquid leaking or damage.

Customized size and specification as per your drawing or sample. We Storage Battery Energy Change suppliers UAE Dubai, can make the Storage Battery Energy Change as per your request, specification, size and bulk quality Dubai.
