Description :

Portable Explosive Detector With High Sensitivity

Technical Specification :

The newly developed product is the portable trace explosive detector with the highest detection limit and the most explosives in the domestic and foreign markets. The excellent ABS polycarbonate casing is sturdy and elegant. The continuous working time of single battery is more than 8 hours. The cold start time is within 10 seconds.The TNT detection limit is 0.05 ng level, and more than 30 kinds of explosives can be detected. The product is calibrated automatically.
Sampling mode: Non-contact sampling and contact wipe sampling
Alarm mode: Sound alarm, image alarm, wireless alarm
Sensitivity: Explosives: pg(TNT)
Alarm time: ?5s
Self-clean time: ?10s
Start-up time: ?5s
False-alarm rate: ?1%
Display screen: 3.5-inch industrial-grade color semi-transparent LCD
Weight: ?1.2kg(including battery)
Working time: ?10 hours
Working environment condition: Temperature?-20??55?, Humidity: ?95%
Radioactive Source: Negative
