

Product Name :
Bottle Labeling Machine

Product Code :
LPCK0009

Description :

Bottle Labeling Machine

Technical Specification :

Direction of Movement Left to Right

Output Up to 300 Label/Min

Power Supply 1 Phase, 230V, 50Hz AC Supply

We are instrumental in offering supreme quality Bottle Labeling Machine or Round Bottle Labeling Machine to our esteemed patrons. Offered by us, these bottle labeling machines are highly demanded in various packaging industries for the purpose of labeling different size bottles. It is due to their easy operation and energy efficient design that these machines are highly appreciated among our patrons.

Salient Features :

- S.S. 304 construction including main machine frame.
- S.S. 304 Slat chain conveyor.
- Very smooth and high speed of operation.
- On-line speed can be vary at single point.
- Accurate label placement.
- Vibration free label Roll opening unit.
- Built in AC Freq. drive system.
- Built in Product counter.
- Suitable for round shape container - Glass, Plastic, HDPE, Pet, Tin, etc.

Optional Features :

- Label Roll Empty : Machine stop with Alarm.
- Acrylic cabinet.
- Missing Label : Machine stop with alarm or online pneumatic operated product rejection system.
- Tower light : Indicate the status of process.
- Online Printer.
- Online vision inspection of printing and Batch no.
- Servomotor instead of stepper motor - for high speed application.

Technical Specification :

*Depends on container and label size.

Specification can be altered as per customer specific requirement.
