

Product Name :
Semi Automatic Bottle Shrink Wrapping Machine

Product Code :
LPCK0053

Description :

Semi Automatic Bottle Shrink Wrapping Machine

Technical Specification :

Max Packing Dimension 600 mm x 400 mm x 350 mm (L x W x D)
Total Unit Dimension 5500mm (L) x 3200mm (W) x 2100 mm (H)
Conveyor Dimension 1800 mm x 650 mm x 450 mm (L x W x H)
Packaging Speed 10-15 Pgs/minute
Shrink Film PE, POF, PVC
Operating Voltage 380 V
Power 19 kW
Phase 3 Phase
Frequency 50 Hz
Air Supply Pressure :4-6 Kg /Cm2, Air Flow -0.5m3/minute

Machine Features:

- No bottle no wrapping
- Construction including main machine frame -M.S. Powder coating
- Variable speed modular Plastic slat conveyor
- Very Smooth and high speed operation
- Totally PLC control system
- Heavy duty shrink heater for long life operation
- Fully synchronized with all mechanism
- Proper shrink the sleeve from all sides of container without melting.

-
- Inbuilt Product counter
 - A.C. Drive for speed control
 - All standard electrical components and Motors.
